

North Carolina Agricultural and Technical State University
College of Engineering
Department of Mechanical Engineering
MEEN 424 – Vibrations and Control

Course Syllabus

Course Information

Course Number/ Section:	MEEN 424
Term:	Summer 2026
Semester Credit Hours:	3 Credits
Times and Days:	Mon, Tue, Wed, and Thursday 9:20 – 11:20 AM
Class Location:	Main Campus McNair Hall Room 214

Instructor Contact Information

Instructor	Amanuel Abrdo Tereda
Office Location	MERIC 141
Office Phone	336-405-6532
Email Address	aatereda@aggies.ncat.edu

Office Hours: Tuesday and Thursday 2:30 – 4:30 PM

Note: Students are responsible for reading, understanding, and following their syllabi.

Course Pre-requisites: MEEN 324 and ECEN 340

Course Description: The course objective is to impart an understanding of why mechanical systems vibrate, and how to analyze and suppress vibration. This course teaches modeling, analysis, and simulation of the free and forced vibration of damped and undamped systems. In addition, basic concepts of system control theory are introduced. Applications of vibration isolation and control are also covered. MATLAB software is used to solve some homework problems and projects.

SACS and ABET Student Learning Objectives/Outcomes

SACS Outcomes: Instruction Outcomes: Upon completion of the course, the student will be able to:

- ❖ **Model** mechanical systems using Newton's laws and derive their equations of motion.
- ❖ **Analyze** system responses using differential equations and linear algebra techniques.
- ❖ **Design and evaluate** basic feedback control systems using root locus and frequency domain methods.
- ❖ **Simulate and assess** controller performance through analysis and/or simulation tools.
- ❖ **Specify and achieve** desired vibration behavior in a mechanical system.

ABET Outcome 1: Students will identify, formulate, and solve vibration and control problems by applying principles of engineering, science, and mathematics at the undergraduate level.

Recommended Textbooks and Materials

- D. J. Inman, "Engineering Vibration", 4th Ed. Prentice-Hall, 2014
- Norman S. Nise, Control Systems Engineering, 8th Edition, Wiley, 2019 (ISBN-13: 978-1-119-47422-7)

Other References:

- W. Palm, “Systems Dynamics”, 3rd Edition, McGraw Hill, 2013.
- Ogata, K., Modern Control Engineering, 5th Edition, Prentice Hall, New Jersey, 2010. (ISBN 10: 0136156738;
- ISBN 13: 9780136156734
- Modern Control Systems, Richard C. Dorf and Robert H. Bishop, 10th edition, Prentice Hall.

Required Materials: Student Edition of MATLAB, Recent Edition, The Math Works, Inc., and other materials related to projects assigned during the course.

Grading Scheme:

93-100	88-92	85-87	82-84	80-81	75-79	70-74	66-69	63-65	60-62	0-59
A	A-	B+	B	B-	C+	C	C-	D+	D	F

Grading Allocation

Course grades are based on a weighted grading scale of 100%. The breakdown for the course is as follows:

HW and computer assignments 10%, In class exercise and Quizzes 10%, Project 20%, Tests 1 (15%), Test 2 (20%), and Test 3 - 25%. **All quizzes will be pop quizzes at the beginning of most classes and there will be no makeup quizzes. You are to come prepared by reviewing previous two classes for each class period. Teams of a maximum of five members will participate in the project work.**

Class Protocol

- **Use of Blackboard:** Blackboard is the primary Learning Management System for this course. The syllabus, lecture materials, homework, and project assignments will be posted there. Students are expected to access Blackboard daily for course updates, assignments, and announcements.
- **Attendance Policy:**
 - Attendance is mandatory and will be checked at the beginning of each lecture. Unless it is announced, all lectures are in-person. Virtual Office hours (zoom meetings) can be arranged in advance via email.
 - Students with more than five unexcused absences will not be eligible for any potential curve on the final grade if applied.
 - It is the student's responsibility to stay informed about all assignments and announcements made in class or posted on Blackboard.
- **Assessment Participation:**
 - Students must attempt all course evaluation methods, including exams, homework, class exercises, and projects. Late assignments will not be accepted unless advance notice is provided.
 - Failure to attempt at least 50% of any evaluation method will result in ineligibility for any potential grade curve.
- **Quizzes:**
 - Quizzes will be pop quizzes conducted at the beginning of most classes, and no makeup quizzes will be given.
 - Students are expected to review material from the previous two classes and bring their textbook and calculator to every class.
 - Electronics, including cellphones and programmable calculators capable of saving documents, connecting to computers, or accessing Wi-Fi, are strictly prohibited during all tests and exams throughout this course.
- **Group Project:**
 - Students must form groups by the given deadline, but the instructor reserves the right to assign or adjust group members.
 - Group members are expected to divide the workload equitably to ensure no one is overburdened.
 - Each group must submit one comprehensive project progress report at each progress due. Project descriptions and due dates will be provided at the time of assignment.

- **Communication of Assessment Issues:** Any issues related to homework, quizzes, projects, or other assessment scores must be communicated to the instructor within 24 hours of receiving the graded result on Blackboard.
- **Email Communication:**
 - When sending emails, include the course name (*MEEN 424 – Vibration and Control*) in the subject line, your name, and use your NCAT email address.
 - Emails from non-NCAT addresses will not receive a response.
- **Classroom Recording and Material Sharing:**
 - Recording or taping classroom activities is prohibited without express written consent from the instructor.
 - Posting lecture materials on any website is strictly forbidden. Violations will result in a failing grade and potential legal actions.
- **Responsibility for Assignments:** Absences do not excuse students from submitting required assignments by the due date. Homework assignments are designed to be completed within a reasonable timeframe. To accommodate varying schedules and potential conflicts, each assignment is allotted at least two to three times the estimated completion time. This extended duration allows students the flexibility to work on problems at their own convenience. Please note that even if additional time is personally required, all work must be submitted within the designated homework window. Extensions beyond the assigned period will not be granted.
- **Academic Honesty:** Students are responsible for knowing the University/ College/Department Student Code of Conduct
Cheating and plagiarism are serious academic offenses that will result in a grade of zero for the entire assignment and/or exam that may result in a grade of “F” for the course, suspension, and/or dismissal from the University.

Make-Up Exam and In-Class Exercise Policy

- Make-up exams will only be administered if the student provides relevant acceptable documentation, such as a doctor’s note, explaining the reason for the absence. The student must contact and inform the instructor at least 24 hours in advance, except in cases of emergency. Emergency situations must be detailed in the submitted documentation.
- If approved, the make-up exam must be taken within one week of the return date specified in the documentation.
- Please note: There will be no make-up opportunities for missed in-class group exercises under any circumstances.

Make-up exams

Make-up exam will be administered only upon the submission of the relevant acceptable written documents, explaining the reasons for the missing ones. The student **MUST** contact the instructor about this 24 hr prior to the exam date to schedule the make-up Exam unless it is a documented emergency case. There will be no make-up for a missed in-classroom group exercise and missed homework.

See current Undergraduate Bulletin: <http://www.ncat.edu/divisions/academic-affairs/bulletin/2018-2019/>

Late Work

*Assignments will be announced in class, and they are due at the beginning of the class period on the due date. The intended purpose of homework is to provide students with practice in solving problems and analyzing designs. **Late assignments will not be accepted.***

Class Attendance

It is University policy and my expectation that you will attend class. Poor class attendance results in poor grade performance. Make-up examinations will be given in accordance with University policy (2017-2018 Undergraduate Bulletin).

Assignments & Academic Calendar (tentative)

Topics, Reading Assignments, Due Dates, Exam Dates, Withdrawal Dates, Pre-registration and Registration Dates, all Holidays, and Convocations.

<i>Week</i>	<i>Dates</i>	<i>Topics</i>	<i>Notes / Deadlines</i>
<i>1</i>	<i>Jun 28, Jul 1, 2, 3</i>	<i>Course Intro & Overview; Control System Background; Mathematical Modeling; Transfer Functions & Responses</i>	<i>Project 1 Assigned</i>
<i>2</i>	<i>Jul 7, 8, 9, 10</i>	<i>Stability of Dynamic Systems; Root Locus Techniques; Frequency Response Techniques</i>	<i>Test 1 (Jul 10)</i>
<i>3</i>	<i>Jul 14, 15, 16, 17</i>	<i>Performance Specifications & Compensation Design; State-Space Analysis & Controller Design; Free Vibration of SDOF Systems</i>	<i>Project 1 Due (Jul 17); Project 2 Assigned</i>
<i>4</i>	<i>Jul 21, 22, 23, 24</i>	<i>Harmonic Excitation & Resonance; General Forced Vibration; Multi-DOF Systems; Vibration Suppression & Noise Mitigation</i>	<i>Test 2 (Jul 24)</i>
<i>5</i>	<i>Jul 28, 29, 30, 31</i>	<i>Feedback in Vibration Control; Integration of Control + Vibration; Review & Case Studies</i>	<i>Project 2 Due (Jul 29); Final Exam (Jul 31)</i>

Department Policies

Note on Deadlines: Dates on the university's calendars come due at the close of the business day which is normally 5:00 PM unless otherwise specifically noted. For any documents needing an approval, they must be received 48 hours in advance of any deadline in business days (which doesn't count (excludes) holidays, evenings and weekends). If not received 48 hours in business days before a deadline, it cannot be assured that the items will be ready to meet the deadline. A 48 hour business day turn around is a university wide expectation for a response. Calendars available at: www.ncat.edu
> MENU > Current Students > Calendars

Mechanical Engineering Technical Electives: Courses include Mechanical Engineer Topics Review (MEEN 404), Composite Materials (MEEN 431), Fundamentals of Nanoscience and Engineering (MEEN 432), Aluminum-Based Product Design and Manufacturing (MEEN 433), Computer Integrated Mechanism Design (MEEN 435), Advanced Manufacturing Processes (MEEN 434), **Aero Vehicle Structures (MEEN 451)**, Turbomachinery (MEEN 452), **Flight Vehicle Performance (MEEN 453)**, Design of Thermal Systems (MEEN 461), Heating, Ventilation, and Air Conditioning (MEEN 463), Internal Combustion Engines (MEEN 464), **Energy Conversion Systems Design (MEEN 465)**, and Fundamentals of Nuclear Energy (MEEN 466). Other department approved courses may be added.

Students in Aerospace Option should only choose Technical Electives that are in **bold face** from the list above: MEEN 451, MEEN 453, and MEEN 465.

Math/Science Electives (Note: Students may only take courses on the math/science elective list. May not count courses not on the list.), The math/science elective list: MATH 351, MATH 432, CHEM107 and CHEM 117, BIOL 100, PHYS 290, and PHYS 305

Senior-Level Courses Offered in Fall or Spring Semester only: MEEN 480 is offered only in the fall semesters, and MEEN 492 and MEEN 481 (MEEN 482 for Aerospace Option) are only offered in the spring semesters. Therefore, **students should complete MEEN 321 and MEEN 341 (or MEEN 318) in the spring semester of their junior year** to be ready for the senior project MEEN 480 in the fall semester of their senior year. Students who fail to follow this schedule will not be able to graduate on time. **Note:** The department recommends that students plan their studies only to take a **maximum of 13 credits** while taking MEEN 480, and 481/482 in the senior year.

Checking Prerequisite/Co-requisite Requirements: All MEEN students are responsible for ensuring they are taking courses for which the prerequisite/co-requisite requirements are satisfied. **If a student takes a course without proper prerequisites or co-requisites, he or she will receive an “F” grade in that course.** To help ensure that you satisfy prerequisites, your instructors may ask you to show your grade reports to them. You should verify prerequisite requirements with your advisor before the last day to add so that you will have time to substitute another course if necessary.

Course Load: The normal course load in Mechanical Engineering is 15 to 16 semester credit hours to acquire 120 credits in four years following the curriculum. For full-time status, an undergraduate student is required to carry a minimum of 12 credit hours; however, carrying just this minimum load will mean that you will require more than 8 semesters to complete your degree requirements.

The maximum course load that a student may carry is 18 credit hours unless the student has a cumulative grade point average of 3.0 or higher, or has a 3.2 semester grade point average while earning 12 or more credit hours in the semester prior to the one for which the overload is requested. The maximum course overload for any student is 21 credit hours. The maximum course load for one 5-week summer session is 7 credit hours.

College Policies

Minimum Grade of “C-” in Selected Courses: The College of Engineering and the Mechanical Engineering Program have adopted a list of specific courses in which students must earn a minimum grade of “C-” to meet graduation requirements or to progress on to any course for which these courses are prerequisites. This policy will be in effect beginning Fall 2020. The courses requiring a minimum “C-” grade for mechanical engineering students are MATH 131, 132, 231, and PHYS 241.

All other courses in the BSME curriculum only require a minimum grade of D to pass. However, a student must have a minimum GPA of 2.0 overall and 2.0 in the major to graduate. In addition, a student must have a minimum C- in PHYS 242 to take ECEN 340.

[Distance Learning Policies]

List any distance learning policies here if appropriate.

University Policies

Aggies-Care Link

<https://www.ncat.edu/coronavirus/aggies-care/index.php>

Use of Artificial Intelligence (AI) Tools Policy

Artificial Intelligence (AI) tools (e.g., ChatGPT, Copilot, Gemini, or other generative AI applications) are increasingly available to assist with academic work. While these tools can support learning, they must be used responsibly and in alignment with course objectives, university academic integrity standards, and ABET learning outcomes.

Permitted Uses:

- AI tools may be used for *idea generation, brainstorming, or clarifying concepts* discussed in class.
- AI tools may be used to *support coding and simulation* (e.g., MATLAB guidance), provided that all outputs are **verified, understood, and documented** by the student.
- Students must **cite the use of AI tools** in homework, projects, or reports. A simple statement such as "*Portions of this work were assisted by [AI tool name], verified and interpreted by the author*" is required.

Prohibited Uses:

- Submitting AI-generated content (text, solutions, figures, or code) as one's own without citation or verification constitutes plagiarism.
- Using AI tools during quizzes, tests, or exams is strictly prohibited.
- Relying on AI outputs without independent verification is considered an academic integrity violation, as it undermines the ability to demonstrate mastery of course material.

Student Responsibility:

Students are responsible for ensuring that any use of AI contributes to their learning. Misuse of AI that circumvents problem-solving, analysis, or design work defeats the educational purpose of this course and will be treated as a violation of academic integrity.

Instructor Authority:

The instructor reserves the right to question any submitted work suspected of inappropriate AI reliance. Students may be asked to explain or reproduce their solutions without AI assistance.

Participation

Students are expected to attend class and participate on a regular basis in order to successfully achieve course learning outcomes and meet federal financial aid requirements ([34 CFR 668.22](#)). Active participation may consist of course interactions with the content, classmates, and/or the instructor. Examples of academically-related course activities include, but are not limited to:

- Completing and submitting assignments, quizzes, exams, and other activities within Blackboard or through Blackboard (3rd-party products).
- Participating in course-related synchronous online chats, discussions, or meeting platforms such as Blackboard Collaborate in which participation is tracked.

Note: Uploading assignments through Blackboard presents a challenge for Chromebook users in locating the files for submission. If you use a Chromebook, please be sure you also have access to a Mac computer or Windows computer so you can fully participate in your Blackboard class. For more information about student computer recommendations, please visit

<https://hub.ncat.edu/administration/its/computer-recommendations.php>.

Classroom Citizenship

Courtesy, civility, and respect must be the hallmark of your interactions. It is expected that students will conduct themselves in a courteous manner to fellow students and the instructor.

Cell Phone Usage

Cell phone use inside classrooms during class periods is prohibited. Be advised that placing or receiving calls, as well as conversing on cell phones during class, shall be considered as disruptive behavior for students and may be subject to the procedures on Disruptive Students in the Classroom.

Compliance with the Americans with Disabilities Act

North Carolina A&T State University (N.C. A&T) is committed to following the requirements of the Americans with Disabilities Act Amendments Act (ADAAA) and Section 504 of the Rehabilitation Act. If you need an academic accommodation based on the impact of a disability, you must initiate the request with the Office of Accessibility Resources (OARS) and provide documentation in accordance with the Documentation Guidelines at N.C. A&T. Once documentation is received, it will be reviewed. Once approved, you must attend a comprehensive meeting to receive appropriate and reasonable accommodations. If you are a student registered with OARS, you must complete the Accommodation Request Form to have accommodations sent to faculty.

OARS is located in the Academic Classroom Building, Room 302 and can be reached at 336-334-7765, or by email at accessibilityresources@ncat.edu. Additional information and forms can be found on the internet at <https://www.ncat.edu/provost/academic-affairs/accessibility-resources/index.php>.

Please note: Accommodations are not retroactive and begin once the Disability Verification Form is provided to faculty.

Title IX

North Carolina A&T State University is committed to providing a safe learning environment for all students—free of all forms of discrimination and harassment. Sexual misconduct and relationship violence in any form are inconsistent with the university's mission and core values, violate university policies, and may also violate federal and state law. Faculty members are considered "Responsible Employees" and are required to report incidents of sexual misconduct and relationship violence to the Title IX Coordinator. If you or someone you know has been impacted by sexual harassment, sexual assault, dating or domestic violence, or stalking, please visit the Title IX website to access information about university support and resources <https://www.ncat.edu/legal/title-ix/index.php>. If you would like to speak with someone confidentially, please contact the Counseling Services at 336-334-7727 or the Student Health Center at 336-334-7880.

Repetition of Courses and Withdrawals (University Policy): During a student's academic career at the University, a student may repeat up to a maximum of 16 credits in any combination of distinct courses. The student may then request that the Provost be petitioned for no more than an additional 6 credits be repeated. If a student needs to repeat any additional credits after the repeat limit is exhausted to meet degree requirements, the student will have to change to a major where repeating isn't required to continue at the University. Also, during a student's academic career at the University, a student may withdraw (W) from a maximum of 16 credits. Withdrawals don't count in repeats. After the 16 credits of withdrawals are exhausted, the student may not withdraw from any more courses but must stay in

the course and receive a grade. Course withdrawals refer to a student withdrawing from at least one of their enrolled courses after the drop/add period and by the last day to withdraw from a course, as published in the Academic Calendar. Withdrawing from the last course for the semester constitutes a withdrawal from the University, and the student must complete the official University withdrawal process, as outlined in the Withdrawal from the University policy. In order to receive financial credit for withdrawal from courses, a student must withdraw from course(s) within the official “add/drop” period. Students are financially liable for all courses that they are registered in after the last day to drop with a refund.

More details can be found on the university website:

<https://hub.ncat.edu/administration/legal/policies/sec2-acad-affairs/aa-ug-repetition-of-courses-and-grade-replacement-for-undergraduates-052219.pdf>

https://hub.ncat.edu/administration/legal/policies/sec2-acad-affairs/2019july29_finalapproved_course-withdrawal-policy1.pdf

Maximum Course Load for a Student on Academic Probation: The maximum course load for a student on academic probation is 15 credit hours.

See: <https://hub.ncat.edu/administration/legal/policies/sec2-acad-affairs/Academic%20Standing.pdf>

Suspension/Readmission: A student suspended for academic reasons must stay out one full semester. A suspended student wishing to re-enroll must apply in writing, a minimum of 30 days prior to the semester for which readmission is requested. The department will support readmission requests only if the requestor and advisor have prepared an individualized comprehensive plan of study which affords the student a reasonable chance of success.

Tuition Surcharge: Please note that in an effort to improve the four-year graduation rate, the Board of Governors of the University of North Carolina system has mandated a tuition surcharge of 50 percent on students who attempt more than 140 degree credit hours to complete a four-year baccalaureate degree. See the University Bulletin for additional details relating to these requirements.

Degree Evaluation: Degree Audit in Aggie-Access-Online shows the courses you have taken as well as those remaining to be taken to fulfill graduation requirements. If a student has any questions, he/she should consult with his/her advisor.

Permission To Take Courses At Another Institution: A “Permission Form To Take Courses At Another Institution” must be completed with all the required signatures and submitted to the Office of Transfer Articulation before a student enrolls in courses at another institution. The University will not accept credits earned at another institution while a student is: (1) on academic probation (unless approved by the Department Chairperson and School/College Dean); (2) under academic or social suspension; or (3) concurrently registered at North Carolina A&T State University. No transfer credit(s) will be awarded for a course in which a grade below ‘C’ was earned.

Minor Fields of Undergraduate Study: A student must complete at least 24 hours of academic credits before declaring a minor and must have a minimum GPA of 2.0. A student who is working on a bachelor's degree has the option to enroll in a program leading to a minor (or minors) provided: (1) the minor field is different from the major field; (2) the student meets the requirements for acceptance into the minor program; and (3) the appropriate application for admission or the "Change of Major/Minor" form is approved and filed at the Office of the Registrar.

A student may have no more than two minors regardless of the student's major degree program. Multiple minors must be in different fields of study. Minors, though optional, are only awarded upon the completion of degree requirements.

For more information see:

<https://hub.ncat.edu/administration/legal/policies/sec2-acad-affairs/Minor%20Fields%20of%20Undergraduate%20Study.pdf>

Satisfactory Academic Progress (SAP): The Higher Education Amendment Act of 1965, as amended, mandates institutions of higher education to establish a minimum standard of "Satisfactory Academic Progress" for students receiving federal financial aid. North Carolina A&T State University makes its standard applicable to all federal, state and some institutional funds. The satisfactory academic progress policy applies to all terms regardless of whether financial aid was received. Satisfactory academic progress will be evaluated for all students (full or part-time) annually (at the end of each spring semester). Students re-admitted under the "five year rule" must also meet the Satisfactory Academic Progress standards to receive financial aid.

Waiving Freshman Seminar (FRST 101): The Freshman Seminar (FRST 101) requirement may be waived for students who transfer with at least 30 hours of transfer coursework.

Double Major: Students who desire to obtain a double major must file a double major form in the Office of the Registrar. Students who have double majors which involve two departments or two schools must satisfy the major requirements for each department or school. To graduate with a double major, students must complete requirements for both majors during the same semester or summer term.

Course Credit by Examination (CE): Credit may be earned by examination for any undergraduate course for which a suitable examination has been adopted or prepared by the department granting the credit. The student receives the grade "CE" and regular credit for the number of hours involved. However, the credit hours are excluded in computing the student's grade point average.

Grading System: Effective for fall 2014, North Carolina Agricultural and Technical State University has implemented a plus/minus grading system. If a prerequisite course requires a minimum grade of "C", or if a minimum grade of "C" is a requirement in the student's declared major, a grade of C- will not fulfill the requirement.

Standards of Academic Standing: Effective for fall 2014, to continue at North Carolina Agricultural and Technical State University in good academic standing, undergraduate students must earn a minimum cumulative grade point average (GPA) of 2.00. Failure to earn a minimum cumulative GPA 2.00 will automatically place the student on academic probation during the subsequent semester. (Note: The cumulative GPA earned at NC A&T SU is computed ONLY on the basis of coursework taken at NC A&T SU; grades earned on coursework transferred to NC A&T SU are not computed into the GPA at NC A&T SU, and therefore not used to determine academic standing.) The University, on the recommendation of a student's major academic department, reserves the right to deny enrollment to any student, even if the grade point average meets the minimum standards listed above, if it is apparent from the student's academic record that the student is not making satisfactory academic progress toward meeting the required graduation requirements for their major.

Undergraduate Enrollment in Graduate Courses: The student needs to meet the requirements set forth by the Graduate College where 600-699 courses are master's level courses open to all graduate students. Undergraduate students may take these with senior status and a minimum 3.25 GPA or above, or in special cases as part of an accelerated bachelors-master's program.

General University Information

QEP: TEAM

North Carolina A&T's Quality Enhancement Plan is a requirement of regional accreditation with the Southern Association of Colleges and Schools Commission on Colleges. The title of N.C. A&T's plan is Toward Enhanced Achievement in Mathematics, or QEP: TEAM. The purpose: to improve student success, specifically student performance in general education mathematics courses.

Mathematics is important to all learners, not just STEM majors. Math mastery is essential for many career paths and for use in our daily lives beyond N.C. A&T. Research shows that learning mathematics makes us better critical thinkers and problems solvers. Many students report struggles with mathematics coursework. The extensive level of mathematics support now provided by A&T – all of it, free of charge for all students – has proven to be effective for students who have taken advantage of it. That support includes individual and group tutoring and a new online mathematics platform, ALEKS -- a research-based learning program that uses artificial intelligence to provide engaging, customized instruction tailored to individual learner needs.

No matter your history with mathematics, it is NOT impossible to learn! Stay engaged, and take advantage of the free A&T support. You'll not only grow more comfortable with mathematics, you'll become more confident in your abilities, and that will lead to success in the classroom.

For more information about QEP: TEAM, please click on the following link or scan the QR Code: [QUALITY ENHANCEMENT PLAN: TOWARD ENHANCED ACHIEVEMENT IN MATHEMATICS \(QEP: TEAM\) | 2021–2026 \(ncat.edu\)](#)

Technical Requirements

Students are to refer to the Information Technology (IT) Services student computer requirement list to determine the minimum technical requirements based on College specifications. Link:

<https://hub.ncat.edu/administration/its/computer-recommendations.php>

Online Orientation Requirement

All new students at North Carolina Agricultural and Technical State University are required to complete an online orientation, which includes familiarizing themselves with the LMS tools (Blackboard) and online learning strategies before starting their first course. <https://bit.ly/AggieOnlineLearningOrientation>

How to Enroll

<https://bit.ly/AggieOnlineLearningOrientationSelfEnroll>

Technical Support

If you experience any problems with your N.C. A&T account, you may call Client Technology Services (formerly Aggie Tech Support and Help Desk) at 336-334-7195, or visit

<https://hub.ncat.edu/administration/its/dept/ats/index.php>

Field Trip Policies / Off-Campus Instruction and Course Activities

Off-campus, out-of-state, and foreign instruction and activities are subject to state law and university policies and procedures regarding travel and risk-related activities. Information regarding these rules and regulations may be found at <https://www.ncat.edu/campus-life/student-affairs/index.php>

Student Handbook

<https://www.ncat.edu/campus-life/student-affairs/departments/dean-of-students/student-handbook.php>

Sexual Misconduct Policy (Title IX website)

<https://www.ncat.edu/legal/title-ix/policies.php>

Family Educational Rights and Privacy Act (FERPA)

<https://www.ncat.edu/registrar/ferpa.php>

Student Complaint Procedures

<https://www.ncat.edu/current-students/student-complaint-form.php>

Student Conduct and Discipline

North Carolina A&T State University has rules and regulations that govern student conduct and discipline meant to ensure the orderly and efficient conduct of the educational enterprise. It is the responsibility of each student to be knowledgeable about these rules and regulations.

Please consult the following about specific policies such as academic dishonesty, cell phones, change of grade, disability services, disruptive behavior, general class attendance, grade appeal, incomplete grades, make up work, student grievance procedures, withdrawal, etc.:

- Undergraduate Bulletin
<https://www.ncat.edu/provost/academic-affairs/bulletins/index.php>
- Graduate Catalog
<https://www.ncat.edu/tgc/graduate-catalog/index.php>
- Student Handbook
<https://www.ncat.edu/campus-life/student-affairs/departments/dean-of-students/student-handbook.php>

Academic Dishonesty Policy

Academic dishonesty includes but is not limited to the following:

1. Cheating or knowingly assisting another student in committing an act of cheating or other academic dishonesty;
2. Plagiarism (unauthorized use of another's words or ideas as one's own), which includes but is not limited to submitting exams, theses, reports, drawings, laboratory notes or other materials as one's own work when such work has been prepared by or copied from another person;
3. Unauthorized possession of exams or reserved library materials; destroying or hiding source, library or laboratory materials or experiments or any other similar actions;
4. Unauthorized changing of grades, or marking on an exam or in an instructor's grade book or such change of any grade record;
5. Aiding or abetting in the infraction of any of the provisions anticipated under the general standards of student conduct;
6. Hacking into a computer and gaining access to a test or answer key prior to the test being given. N.C. A&T reserves the right to search the emails and computers of any student suspected of such computer hacking if a police report of the suspected hacking was submitted prior to the search; and
7. Assisting another student in violating any of the above rules.

A student who has committed an act of academic dishonesty has failed to meet a basic requirement of satisfactory academic performance. Thus, academic dishonesty is not only a basis for disciplinary action but may also affect the evaluation of a student's level of performance. Any student who commits an act of academic dishonesty is subject to disciplinary action.

In instances where a student has clearly been identified as having committed an act of academic dishonesty, an instructor may take appropriate disciplinary action, including a loss of credit for an assignment, exam, or project; or awarding a grade of "F" for the course, **subject to review and endorsement by the chairperson and dean.**

The Office of Accessibility Resources

The Office of Accessibility Resources (OARS) works collaboratively with students, faculty, and staff to create a universally accessible campus where programs and services are usable by all people, to the greatest extent possible. OARS provides the campus community with resources and services for individuals with disabilities to achieve social justice and equity. New and returning students who request accommodations due to a disability or medical condition are responsible for registering with OARS, submitting documentation, knowing and following the policies and procedures of OARS located on

our [Get Connected](#) webpage. OARS is located in the Academic Classroom Building, Room 302.

Office of Veteran & Military Affairs

The Office of Veteran and Military Affairs (OVMA) is here to meet the needs of our students who are veterans, service members, dependents of service members, and/or veterans. The OVMA certifies your educational benefits throughout each academic year. The OVMA is also prepared to advise and counsel you in regard to any veteran or education-related concerns. The OVMA serves as the liaison between veteran students and the Department of Veterans Affairs. It assists eligible veteran students in understanding their educational benefits, provide guidance on procedural requirements, and certify, register, and report enrollments to the VA to ensure veterans receive their benefits in a timely manner. The OVMA is located in The Aggie Student V.E.T.S. Center at The Oaks.
Phone: 336-398-8651

Counseling Services

Counseling Services, an International Accreditation of Counseling Services (IACS) accredited unit in the Division of Student Affairs, offers a variety of services to help all currently enrolled North Carolina A&T students address challenges and difficulties they may face. Services are designed to help students understand themselves better, create and maintain healthy relationships, improve their academic performance, and make satisfying career and life choices. *If you are experiencing distress, they provide a safe and confidential environment for counseling. You may contact Counseling Services at 336-334-7727 or stop by our office in Murphy Hall, Suite 109.*

Tutorial Services

The mission of CAE Tutorial Program is to empower students for academic success within a safe and inclusive learning environment. Our goal is to provide academic support by offering a broad range of tutoring services for those students desiring to improve their in-class performance. When you schedule a tutoring session, you can get help with preparing for an upcoming exam or with covering difficult concepts you want to master.

North Carolina A&T State University has partnered with Upswing to help students find, schedule, and book tutoring sessions both in-person and virtually. Through a web-based tutoring platform, you can schedule FREE tutoring lessons with Upswing's online tutors, or with North Carolina A&T State University in-person tutors, for a variety of subjects. Go to ncat.upswing.io and log in with your Aggie OneID credentials to get started, or contact the Center for Academic Excellence at 336-334-7855.

Technology Support

Client Technology Services

Client Technology Services (CTS) is a part of Information Technology Services (ITS). This unit is responsible for desktop computing support and related software programs for the university. Support is provided in the academic labs, residential labs, and administrative offices.
